PU NIRUPAM CHAKMA
MINISTER

: Pu Speaker, I speak in English now. First of all, regarding the No. of family, five thousand and which I have said, I will try to collect their names of the families.

Regarding the achievement of the Department as we have seen over this year the Fisheries Department, their achievement not satisfactory I am not admitted. That is why the Govt. has taken the initiative. We will have got Fish farmers development agencies approved by the Govt. of India through this Fish Farmers development agencies, the Central finding is flowing to Mizoram now.

And many families could be assisted through this five No. fish farmers development agencies. They are mainly Aizawl East, Aizawl West, Kolasib, Lunglei and Chhimtuipui District.

For your information not constituted the agencies, development agencies under the Chairmanship of Deputy Commissioner, in Aizawl District, Deputy Commissioner in Lunglei District and Deputy Commissioner in Chhimtuipui District. And there are about 12 members represents in its development fish farmers agencies.

Whenever the prayer for Assistance Council of a Govt. It is not entertain from the Govt. level here. Every assistance will be given through this fish farmers development agencies. And this is for the information of all the honorable members.

That whenever we will meet any person to require help for fishery, you should recommend refer the case through this fish farmers development agencies that means Deputy Commissioner and every year the fund is allotted to them. So with the introduction of this farmers development agencies, I think the progress is very much because they can review the situation, the progress and achievement. To the families whom they had assisted. Now, the dept of Fisheries recently engage one Scientist to see our problems and prospect. Mr. Parulikar from Goa has come here and submitted their report and Govt. is working on the recommendation how to implement.

First of all we will see that what that the expensive available in Mizoram, which has not been done till today. What kind of fishes available in Mizoram that has to be mistake and let it be reserved, then sometimes there may be a time where it is available species in Mizoram. So this is where the Fisheries Department is achieving which we have not done earlier.

Now, this five thousand fish farmers which I have mentioned is that, we should remember that many of the fish farmers or persons having fishery are not taking up this Fishery Farming for a livelihood. I think many of the honorable members sitting here also have been fishery farmers. That gradually means that this is for that absolutely for, I mean for the means of livelihood. Therefore, they are not taking so much interested in the fishery. That the real farmers who are taking interest are very few. As I have said five thousands even the land use policy programme has assisted, about 1354 beneficiaries under 16th development block. Similarly the cooperative Department had organised many Cooperative Societies. So, I think this have got a joint farmers. Fishery Department the well development Department and the Co-operative sector are working for the development of Fishery. So with the introduction of the fish farmers developments agency, or research programme and your asking me for the achievement or

SPEAKER : Hmasawna leh achievement tha chu sawi vek sen a ni lovang. An zawh kha chhang la, Fishery Department hi la tih zel in tum em ? Mizorama eizawna atan hian a tlak em ? tih lai a kha an zawhna chu anih kha.

PU F. LALREMSIAMA : Pu Speaker, Mr. Nirupam, you are wasting our valuable time.

PU NIRUPAM CHAKMA : Pu Speaker, unless I clarify
MINISTER or inform the House what does
step the Fisheries Department
is taking, you cannot considered
whether this should be continue or to be done away we can-
not give the good judgement that is why the informing the
House. Mr Speaker, I will not take may time. Now 5000
Fishery farmers if we can properly maintain them if we can
properly assists them. In time or advised I think Fishery
Department will always press and I have already typed two
years of time Mizoram will come and see the production.
within 2 years of time I assure you Mizoram will be come
self-saficient in 2,3 years Fish production. Thank you sir.

PU NIRUPAM CHAKMA : Mr Deputy Speaker, I will not
MINISTER take much time, I'll try to
finish within half an hour.
Pu Dy.Speaker, first of all,
I would like to reaction Information & Public Relation,
some of the Hon'ble members have pointed out about the
issue of Advertisement. The issue of Advertisement is
done as per rules and regulation, but if there is any dis-
crepancies. I would take a personal interest on this, I
assure you. This morning there was a unstarred question
in this regard, I think the matter is clear. However, if
there is any discrepancies, that I would take care. Regar-
ding concentration of centralisation of advertisement fund
of various departments into Information & Publicity De-
partment, I would be very happy if this can be done. I
would take up with the cabinet in appropriate time. Pu Dy.
Speaker, I am very happy that Hon'ble Members has pointed
out Aizawl Darshan and Mizoram Darshan. This Aizawl Darshan
will be continued. and will consider whether the mizoram
darshan can be organised as well as we have done Bharat

Darshan also. So, this programme will be continued.

Regarding All India Radio, there is some proposal at Saiha highlighted by Pu Rokhaw this matter I had taken up personally with the Secretary, Ministry of Information & Broadcasting and we have requested him to expedite the proposal at Champhai and Saiha, I would like to inform the House that during our visit there. We have also got an assurance for establishment of community Radio Station at Lawngtlai and Chawngte provided the Govt. facilitated them with a small building of 2 rooms. We have assured the Govt. of India that will arrange building from our own..... till they can publish our concerned their own building.

Mr Speaker Sir, I think I have briefly thought the important points which were highlighted during the deliberation by the Hon'ble Member. But before concluding about the Information and Public Relation I would like to reaction the live Telecast today. I think the Information Department of Mizoram has created a history in the field of Information & Publicity in Mizoram. But the live Telecast of Assembly Session could be seen the first time in India that any State Govt. is doing. We have seen the Central Govt. inspite of so many difficulties will face that Information Deptt.. can organised it live Telecast for the benefit of the people. I hope this will be well appreciated. If there is any difficulties or some sort fall that can be rectify in course of time. Since, this is a very faced I think it come coverage is not satisfactory. I hope the Deptt. will look into this and I would also inform the House that the fund which is doing for the live Telecast would not charging any fees from the Deptt. We are grateful to Firm which is doing for us.

Sir, in regards to Fisheries Deptt. As I have said this morning in cost of my reply to the question of Hon'ble Member that the achievement of Fish-eries Deptt. earlier were not so much satisfactory as I have admitted but we have taken up initiative. An this new initiative include the strategy of fish seed supply thouthout Mizoram new for the Information of the Hon'ble Member any interested person or Farmer requiring fish seed should report to District Fisheries Development Officer, he should give his requirement the quantity we have advertise throughout Mizoram, there is still time if some interested person are requiring fish seed. They can publish their requirement to the District Fisheries Officer. Yes, we have the provision.

PU LAL BIAKZUALA

: Pu Deputy Speaker, Department
a lak nilo, mimalin lo la duh
ta sele, an subsidised thei
em ?

PU NIRUPAM CHAKMA
MINISTER

: Pu Dy. Speaker, but we have not practice we'll see what can be done, I do not know what will be the view of my Department.

I am informing the House Building any body who is requiring any fish- seed from the Government under subsidise rate 50% subsidise rate. They should informed district Fisheries Officer and placed their requirement. But at the same time they should also indicate what kind of fish seed they required because in the morning there was a some complaint about that you know the quality of fish seed, we should know that the Department of Fisheries is supplying three kind of fish seed the smallest one called sponge from sponge that is the smallest one than 1 inches will be called..... and the bigger one supplied is finger so, the requiring person should indicate his quantity required and the size of the seed he required other wise the Department cannot a certain if somebody placed five thousand seed required it unless he indicate the size and the size also. Pu Dy. Speaker, I would also informed the House our strategy about fish supply we don't want to procure fish seed every year from outside the Department envisage to have full fledges fish seed farm in Mizoram atleast 3 nos in 3 District each District should have atleast 1 full fledges fish seed farm we are having 5 fish seed farm at present but not a single farm is develop into full fledges fish seed farm, that is our strategy now that we ensure that atleast 3 nos of fish seed farm develop into full fledges farm, so that our fish seed requirement can be made by the Department itself and that time the question of dead fish seed will not arise because we have to transport fish seed by oxygen packing and that the bigger fish seed will die at a travelling along distance like Lunglei, Saiha it will not die if it is near at Kolasib or Bilkhawthlir or at near to Aizawl. A smaller fish seed will survive more days, more time than the bigger one when it is packed in the oxygen packing. So

PU R. TLANGHMINGTHANGA :

Pu Deputy Speaker, full fledges seed farm District tinh kan noi e a ti a. Tia, kan supply thei reng a ti bawka, amah-

PU NIRUPAM CHAKMA
MINISTER

: Pu Deputy Speaker, I will repeat we have 5-6 seed farm at present but we can not produce sufficient quantity of fish seed(at present)

... 1/1/...

Therefore, we have to bring or purchase fish seed from out side Mizoram. Now, we want to discontinue purchasing procuring from out side but this we can not do unless we have three atleast 3 number of fish seed farm in Mizoram full fladges fish seed farm the Department can do it, I told my Officer that this is possible but we have not achieved is not good we have to atleast full fladges fish seed farm other people can do why not we can do if it is can develop in near Cachar why not in Mizoram we had all Government infructure money everything we have man power so, we must have I think we didn't say next 2 years of time will not be requiring any procurement from outside is not be requiring any procurement from inside. That is our strategy. Sir, regarding marketing some of the Hon'ble Members are pointed out. I would like to inform the House that we are concern very much about the marketing of fish in Mizoram. Even at present also, we have suffecient quantity of fish produce through-out the state. But due to marketing problem, this fish are not coming to the market, that is why the Department have initiaited construction and commissioning of Cold storage and ice plant, now we have three in hand one is at Bilkhawthlir, Kolasib and Bawngkawn, Aizawl. So, we will try to commission this project within this year itself. So that marketing process can be initiated as early as possible. Also we have kept a revolving fund of 2 lakhs rupees nominal provision. So that we can procure fish sell to market itself. I think this amount can be increase when the requirement arises but provisionally we had 2 lakhs rupees at present.

Thirdly Sir, regarding the development of Fish Farm technically this call Aqua-culture viz fish farm development. I have informed this morning that we have give fish farmer development agency approved by the Govt. of India and funded by both Govt. of India and Govt. of Mizoram to contribute our So, any farmer requiring financial assistant or any kind of assistant should approach the FADA. I know that Pu Hranghluta had mentioned about the Actually if the FADA, it is the Committee under the chairmanship of D.C.

The committee does not include anybody. The seclction should be made by the committee itself. Therefore the Chhimtuipui District all the Chief Executive Member of three District Council are included as a member, some official are included but we'll see whether to reconstitute again the committee of the I think in Aizawl one of the Aizawl 'E' District Pu J.V.Hluna is one of the member, we'll look into the whether to reconstitute the FADA. So, that effectively remembers can be present and include more member from the Hon'ble MLAs.

I will circulate the required information about the FADA. Because I have seen that many of the farmer are coming to re-instate directly. Many of the MLAs also recommending the cases to me directly, but

I would like to inform you that from my table, I have not selected anybody or in the Directorate level, it is not selected there. The selection is made by the committee in FADA meeting. That should be information I give you whenever such cases come anybody approach the Hon'ble Member, they should refer their cases to FADA committee and FADA Members

Sir, regarding the Tourism Department, I would like to reaction the point of revenue earning, you might have seen one question, we have indicated revenue earning so far I think for the last three years. What we should know is that we are receiving money from those people who have visited our Centre and who have stranged in our Tourist Lodges. We can not just pull or invite some body to come and gift in our Tourist Lodges or refreshment in the Highway Restaurant. So, this is the revenue earning will only improve when we have more tourists. I would like to request all the Hon'ble Members and the officials also that when you are any places if there are restaurant you please go and see give up sometimes relax, that way you can help us. Similarly while people having good will on the Department and the Govt. may also can help. Because I was informed that initially there was a proposal that all the night buses and the State Transport Buses, especially the state transport Buses passengers can decline there.

But stating that Kolasib is very near people do not want to have a single choose our Tourist Lodge. That programme also we are attend. Now we have to re-think that Thingdawl, we have established the highway Restaurant and Chhialtlang and many places. But we can not give some other additional facilities like souvenir shop for visitor and the Tourists or some telephone facilities. Telephone Boothe is also there. So that the people get attracted or they actual firm. So, that the vehicle could fill the petrol. So, all this kind of project are mainly develop into a joint venture

Unfortunately in Mizoram only the tourist department is doing the project. Sir, for the information of the Hon'ble Member and the House that Tourism cannot be developed by Tourism Department in alone. We must be clear on this. Every tourism project develop in India or outside is through a join venture only.

The Govt. of India is giving out construction of building every year. This year we have five, six numbers approved already. We are receiving 179 lakhs this year alone. But who will mant this building after commissioning. Our Budget provision at Pu Lal-khama has rishly said that the budget provision is very limited. We can not entertain our staff. Therefore we have to

...199/-

engage only the M.R. Staff at the present. And Tourism Department can not be handle by untrained personals. We have to engage the trained personals from Hotel Management from Govt. Institute. But unfortunately we could give them only paid to M.R. at present. Therefore also request my colleagues that a fresh look that a fresh view could be given whether this Tourism Department should really be developed into a revenue earning Department.

In our last Tourism Minister conference we were told that every 2.5 sec. one job in its created in Tourism sector that is whole assesment. But to attract those job whether we have man-power it is also one problem for us. We will happy to know that India had already agreed to establish food crop Institute of in Aizawl. For our boys and girls trained they can be absorb in the private Hotel. So, our is very clear we will constitute one co-ordination committee. We request that Chief Minister to chair the committee meeting. The suggestion given by the Govt. also that all the development project interdonated. We establish Tourist Lodge we require electricity. Therefore, required all the Department who involved in promote centre..... sector to co-ordinate with us. I would like to request all the members to look these. Regarding the man-power I said that due to financial than District Tourist Officer certainly will come in a longer at present. It is very good suggestion will take to it. It is under that District Council has got a power it that gives us any suggestion for the development. It certainly entertaining but under the 19 the suggest, how do you utilised the Govt. cannot do it. So, I would request our Members to take up the matter with District Council authority.

Regarding Tawipui Tourist Lodge, I think we have many Tourist which are completed but as we know the Budget is under the discuss only authority passed then can more for financial will require for meeting and other man-power unless the Budget is passed we cannot do anything. I would like to request may friend Pu F. Lalzuala that we are having so many project like this almost completed Bairabi and many other places some project completion will be there. Therefore, will take up to separately but due to certain problem we cannot do. I think after passing the Budget we can review of the situation of our own. Sir, for your information and formation of the House, I would like to inform the House that the concept of development of Tourism has already begin in the Mizoram Co-ordination has already began in Mizoram and that can be seen in Mizoram. Their plan is very near, I would like to request all the Member to pay a digit once. near Zema-bawk. At present Govt. has constructed one Capitaria, it is Restaurant and 3 Hotel and 1 Resort. We have got provisional 35 lakhs, approved this year, and also a Tourist Lodge. Art & Culture Department is also doing some work

there, they are having cultural centre. There will be some project like, one planetarium will be there, one meditation centre and one museum. There will be a road garden and a viewing gallery. So, this is a complete project for tourist recreation, and it is a place of worth visiting, I would like to invite all the Members to come and participate on the 15th August where the project will be inaugurated to dedicate this project and other activities on the eve of the Golden Jubilee of our country.

Sir, I would not take much time. I think I almost touched all the important points. Before I conclude, I would like to pass by this August House.

Thank you.
